

# Shoot Instructions

You booked a shoot with us, and we are happy to welcome you !

For the shooting you can bring anything you think we can use, like plaids, hats, dog candy, toys... Of course we have also some add-on's we can use !

If you have some requests or something special in mind please let us know. We look at the character of the dog's and decide what fits them or what will work.

The moment you arrive in the studio we first take some time to get to know you and your dogs, it's very important before we start that the dog is comfortable with us. We want to keep the atmosphere very calm and relax so it's important that you are to ! From here you can sit back and enjoy seeing your dog being photographed.

The portraits with you and your dog we do in the end of the shooting. Clothing is very important to give the right feel to your images. You better wear something sober and classic with no motives or prints, black, grey, white and jeans always work good on pictures. You may always ask us for advice or bring more then one outfit ! The clothes for the pictures you better bring separately because otherwise it will be full of hair in no time :)

For the payment you can do in cash after the shooting, an invoice is also possible. If you have more questions please contact us !

See you soon !  
Paul & Inge
